

## Locating a Provider

# Find a top-notch doc in your area.

Finding a great doctor in the MagnaCare Network is easy. Here's how:

Give us a call at **800.235.7330**. You can use either the Automated Provider Locator (24/7) or talk to one of our Customer Service Representatives (Mon-Fri 9-5 EST).

It's easy to find a top-notch doctor in your area.  
Check out our website at [magnacare.com](http://magnacare.com).

The **MagnaCare Website** at [www.magnacare.com](http://www.magnacare.com) makes it easy to choose participating providers in your area who are right for you and your family. New providers are constantly being added, so please check this directory often. If your provider is not listed, you can nominate him or her to participate in MagnaCare's Network.

You can also reference the **MagnaCare Provider Directory**. You may search our comprehensive provider directory to find a conveniently located physician or facility within the MagnaCare Network. You will find specialty and hospital affiliation information in addition to contact information for the healthcare professionals in our Network.

Please remember to always check with your doctor to confirm that they still participate in the MagnaCare Network. And if your doctor isn't part of our network, recommend that they join!
